

- Centerline support casing with 3 mm corrosion allowance
- 4 times API 685 nozzle load and moment capability
- 40 bar minimum design pressure
- Wear rings on the casing
- Pumps use the existing Nikkiso-hydraulic designs from the SGM series
- 27 hydraulic sizes
- Suction Specific Speed < 11,000
- Installation: Horizontal and vertical
- API-Material Code: A8 and S8
- Power: 2,2 kW up to 132 kW
- Head/Capacity: Up to H = 200m / Q = 350m³/h
- Liquid temperature: -100 °C up to +450 °C
- Motor-Insulation: Class C
