Series GB
MAGNETIC DRIVE GEAR PUMP

When you need a low-flow pump that delivers high-performance in a small package, Series GB is an excellent solution. Series GB pumps provide precise, pulseless flow for a wide range of fluid temperatures. Featuring Micropump’s suction shoe design, the pumps self-compensate for wear ensuring near zero slip and a long pump life.

SUCTION SHOE STYLE PUMPS
Suction shoe style pumps self-compensate for wear, are excellent for continuous duty processes, and offer improved efficiencies when pumping at higher pressures.

SMALL SIZE
The miniature package size of the Series GB is easily incorporated into the design of many systems.

FLUID PATH INTEGRITY
The magnetic drive and static o-ring seal(s) keep the fluid securely inside the pump and potential contaminants out.

SMOOTH PULSELESS DELIVERY
Positive displacement, helical gears provide consistent fluid delivery in continuous processes.

CHEMICALLY RESISTANT
Series GB has a long–life in aggressive environments.

EASY TO SERVICE
Series GB pumps are easy to service using a Micropump service kit and simple hand tools.
